

## DSWD DROMIC Report #2 on Tropical Depression “Amang” as of 12 April 2023, 6PM

### I. Situation Overview

Issued on 12 April 2023 at 5 PM, “Amang” made landfall at Lagonoy, Camarines Sur.

#### Hazards affecting Land Areas

##### Heavy Rainfall Outlook:

- Forecast accumulated rainfall for the next 24 hours (from this afternoon to tomorrow afternoon) 50-100 mm: Camarines Norte, Camarines Sur and Quezon
- Forecast accumulated rainfall for the next 3 days (from this afternoon to Saturday afternoon)
- 50-100 mm: CALABARZON, Metro Manila, Tarlac, Pampanga, Bulacan, Camarines Norte, Camarines Sur, and the southern portion of Aurora.
- Under these conditions, isolated flashfloods and rain-induced landslides are possible, especially in areas that are highly or very highly susceptible to these hazard as identified in hazard maps and in localities that experienced considerable amounts of rainfall for the past several days.

##### Severe Winds:

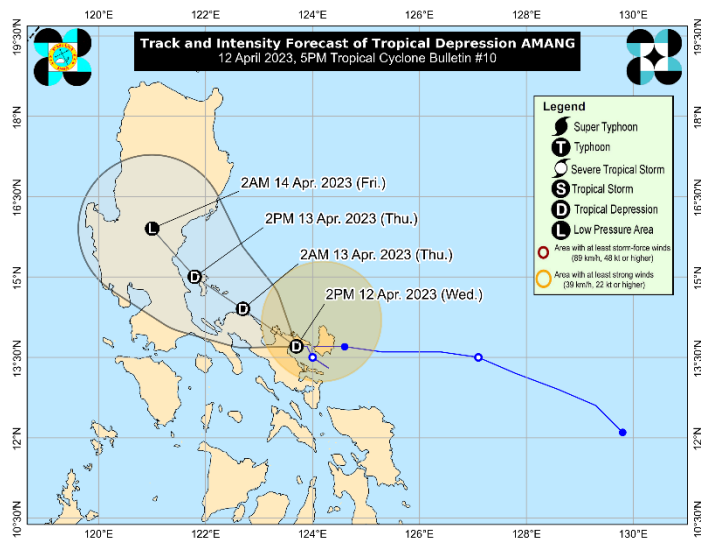

- Areas under Wind Signal No. 1 may experience strong winds (strong breeze to near gale strength) associated with the tropical depression which may cause minimal to minor impacts to life and property.

#### Hazards affecting Coastal Waters

- In the next 24 hours, moderate to rough seas may be experienced over the eastern and southern seaboard of Southern Luzon (1.5 to 3.5 m) and the eastern seaboard of Central Luzon (1.5 to 2.8 m). Mariners of small seacrafts are advised to take precautionary measures when venturing out to sea and, if possible, avoid navigating in these conditions.

#### Track and Intensity Outlook

- “Amang” is forecast to track generally northwestward in the next 12 hours and is expected to pass over the eastern localities in Camarines Sur, Lamon Bay, and Quezon (with the possibility of passing near or over Polillo Islands). Considering the weak and disorganized nature of this depression, considerable changes in the track forecast of succeeding bulletins are not ruled out.

- The tropical depression is forecast to weaken into a low pressure area by tomorrow, possibly earlier, due to the combined effects of land interaction, dry air intrusion, and increasing vertical wind shear.

The center of Tropical Depression “Amang” was estimated based on all available data including those from Daet Doppler Weather Radar in the vicinity of Lagonoy, Camarines Sur (13.8°N, 123.5°E) moving Northwestward Slowly with maximum sustained winds of 45 km/h near the center and gustiness of up to 55 km/h.

## 1. Standby Funds

- ₱41.04 million Quick Response Fund (QRF) at the DSWD Central Office.
- ₱79.07 million available in DSWD FOs which may support the relief needs of the displaced families due to Tropical Depression “Amang” through inter-FO augmentation.

## 2. Prepositioned FFPs and Other Relief Items

- 36,289 FFPs available in Disaster Response Centers; of which, 15,761 FFPs are at the National Resource Operations Center (NROC), Pasay City and 20,528 FFPs are at the Visayas Disaster Resource Center (VDRC), Mandaue City.
- 648,996 FFPs in DSWD FOs which may support the relief needs of the displaced families due to Tropical Depression “Amang” through inter-FO augmentation.
- ₱821.13 million worth of other FNIs at NROC, VDRC, and DSWD FO warehouses.
