

DSWD DROMIC Report on the Flooding Incident in Quezon City

26 September 2023, 6PM

I. Situation Overview

On 23 September 2023, cloudy skies with scattered rainshowers and thunderstorms caused by the Low Pressure Area (LPA) / Southwest Monsoon may have brought possible flash floods or landslides due to moderate to at times heavy rains in Metro Manila, the rest of Luzon, Visayas, and Zamboanga Peninsula.

On the same day, several barangays in Quezon City experienced flooding due to continuous heavy rainfall.
