

## DSWD DROMIC Report #22 on the Effects of African Swine Fever in MIMAROPA

as of 24 November 2023, 6PM

### I. Situation Overview

On October 3, 2023, numerous confirmed cases were documented regarding the propagation of African Swine Fever (ASF) in the Provinces of Oriental Mindoro and Romblon. ASF is a highly contagious viral disease affecting both domestic and wild pigs, with a potential mortality rate of 100%. While it poses no threat to human health, its impact on pig populations and the agricultural economy can be devastating.

Responding to a surge in hog fatalities, the Provincial Government of Romblon declared the entire province under a State of Calamity (SoC) on November 8, 2023. Similarly, the Provincial Government of Oriental Mindoro placed the Municipalities of Mansalay and Roxas under SoC.

In light of this situation, all relevant agencies are actively working to prevent the virus's further spread. The DSWD MIMAROPA is closely collaborating with the affected municipalities to explore potential support and augmentation for affected families.
