

# DSWD DROMIC Report #1 on the African Swine Fever in Brgy. Imelda Marcos, Hilongos, Leyte

as of 07 February 2024, 6PM

## I. Situation Overview

On December 2023, confirmed cases were reported on the spread of African Swine Fever (ASF) in Brgy. Imelda Marcos, Hilongos, Leyte.

ASF is a highly contagious viral disease of domestic and wild pigs, whose mortality rate can reach 100%. It is not a danger to human health, but it has devastating effects on pig populations and the farming economy. There is currently no effective vaccine against ASF. The virus is highly resistant to the environment, meaning that it can survive on clothes, boots, wheels, and other materials. It can also survive in various pork products, such as ham, sausages or bacon.
