

## **DSWD DROMIC Report #18 on the Effects of El Niño** as of 07 April 2024, 6AM

### **I. Situation Overview**

From July 2023 to February 2024, a progression from weak to strong El Niño conditions was observed in the tropical Pacific Ocean. By March 2024, El Niño across the tropical Pacific Ocean shows signs of weakening and is expected to persist until March-April-May (MAM) 2024 season. Majority of climate models suggest a transition to ENSO-neutral conditions during the April-May-June (AMJ) 2024 season (79% chance). However, there is a likelihood for La Niña to develop (55% chance) during the June-July-August (JJA) 2024 season. With this development, the PAGASA ENSO Alert and Warning System is now raised to La Niña Watch.

The effects of El Niño were felt, with conditions leading to agricultural damage and water shortages reported in various regions as stated below:

On 18 December 2023, Region IX provinces started to experience dry condition due to the Effects of El Niño, hence, the declaration of State of Calamity (SoC) in Zamboanga City was raised last 06 March 2024.

In Region VI, five (5) provinces – Aklan, Antique, Capiz, Iloilo and Negros Occidental were affected due to continuous effects of El Niño this has started last 23 February 2024 wherein prevalent dry conditions were reported causing damage to crops, agricultural lands, and livestock.

In MIMAROPA, several LGUs in Oriental and Occidental Mindoro declared a State of Calamity (SoC) due to severe drought, with declarations in Bulalacao on February 26, 2024, Looc and Magsaysay on March 6, 2024, and Mansalay and San Jose on March 7, 2024. Additionally, numerous municipalities in Romblon experienced El Niño effects in March 2024, exacerbating challenges for farmers by diminishing water sources crucial for crop irrigation, including rice, onions, and vegetables.

On February 2024, the Municipality of Capas, Tarlac in Region III, reported that the livelihood of farmers, predominantly from IPs (Indigenous Peoples) families, has been severely affected by the El Niño.

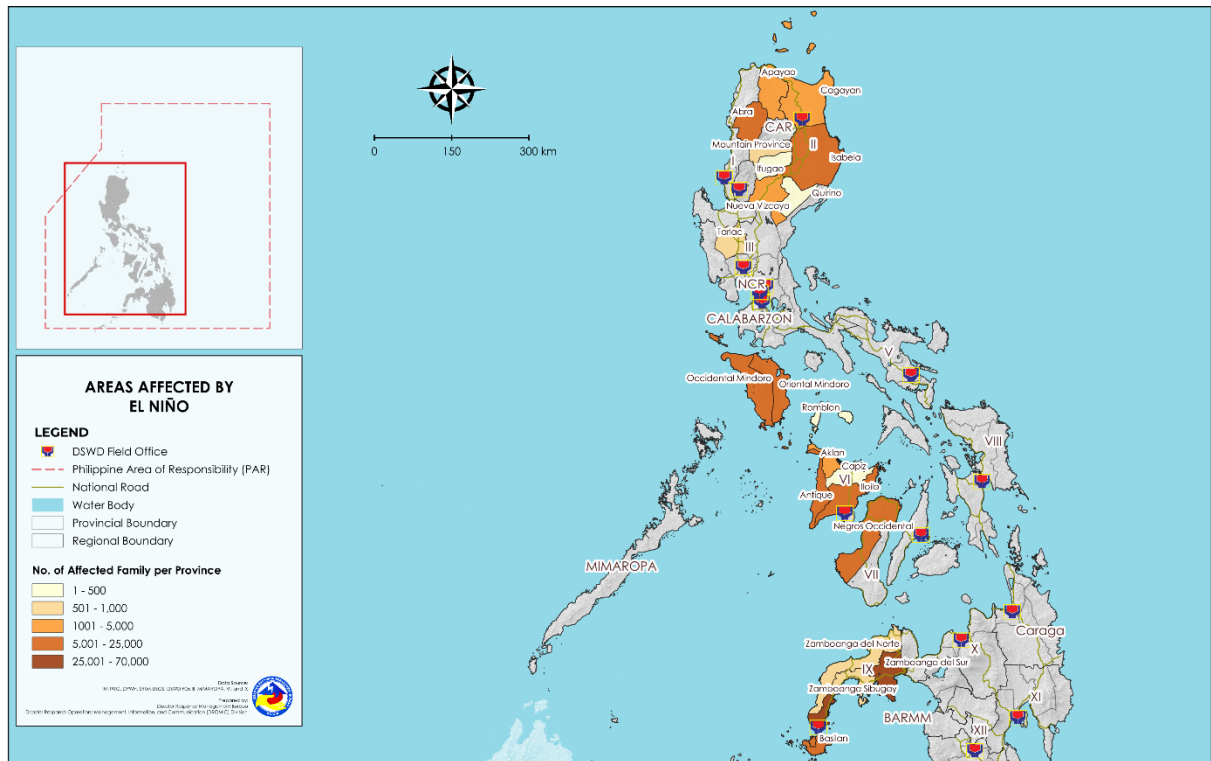

In BARMM, the Municipality of Hadji Muhtamad, Basilan also experienced the effects of El Niño, which resulted to water shortage and insufficient crop supply that leads to food scarcity.

On March, 2024, effects of severe drought have become more prevalent in the Cordillera Administrative Region (CAR), particularly in the provinces of Abra, Apayo, Ifugao and Mountain province. This has led to the destruction of agricultural crops and animal population. In response, the Municipality of Mayoyao, Ifugao declared State of Calamity (SoC) on March 11, 2024.

## II. Status of Affected Areas and Population

A total of **136,839 families** or **633,353 persons** are affected in **973 barangays** in **Regions III, MIMAROPA, VI, IX, BARMM and CAR** (see Annex A).

## III. Cost of Humanitarian Assistance Provided

A total of **₱22,605,560.71** worth of assistance was provided to the affected families composed of **₱17,605,560.71** from **DSWD** and **₱5,000,000.00** from **Other Partners** (see Annex B).

## IV. Response Actions and Interventions
