## **DSWD DROMIC Report #15 on Kanlaon Volcano Eruption** as of 12 June 2024, 6AM

### **I. Situation Overview**

As of **12 June 2024, Alert Level 2** is maintained over Kanlaon Volcano, which means that there is current unrest driven by shallow magmatic processes that could eventually lead to explosive eruptions at the summit crater.

Based on the Kanlaon Volcano Advisory as of 08 June 2024, 9:30 PM, there was an elevated volcanic SO<sub>2</sub> gas flux at Kanlaon Volcano.

Volcanic sulfur dioxide (SO<sub>2</sub>) gas emission from the summit crater of Kanlaon based on campaign Flyspec measurements on 08 June 2024, averaged 4,397 tonnes/day. This is the highest emission this year measured by campaign survey and the second highest land-based measurement for Kanlaon. The volcano has been degassing increased concentrations of volcanic SO<sub>2</sub> this year at an average rate of 1,458 tonnes/day, but emission since the 3 June 2024 eruption has been particularly elevated at a current average of 3,347 tonnes/day. In addition, above background volcanic earthquake has persisted at an average of 33 events/day since the eruption. Ground deformation data from continuous GPS and electronic tilt measurements have been recording medium-term inflation of the Kanlaon edifice since March 2022 and a shorter-term inflation of the eastern flank since 2023, indicating slow pressurization within the volcano. The overall monitoring parameters indicate that degassing of magma may be driving current unrest, causing increased volcanic gas emission, swelling of the edifice and occasional volcanic earthquake activity.

On **03 June 2024 at 8:00 PM, Alert Level 2** was raised from Alert Level 1 for Kanlaon Volcano at after a moderately explosive eruption occurred at the summit crater at 6:51 PM earlier in the evening. The event was recorded as an E-type earthquake that lasted six (6) minutes based on seismic data and produced a five (5) kilometer-high voluminous eruption plume. All ten (10) seismic stations, three (3) infrasound stations and two (2) visual monitors of the Kanlaon Volcano Network (KVN) recorded the explosion. Thermal camera monitors showed material collapsing from the incandescent plume forming Pyroclastic density currents (PDCs) that descended the southern slopes to a distance of two (2) to three (3) kilometers. Incandescent ballistic ejecta were also observed to rain down from the eruption plume. Rumbling sounds generated by the eruption were heard in La Castellana and La Carlota City, Negros Occidental and Canlaon City, Negros Oriental. Coarse ashfall reportedly fell upon barangays of these same areas and Bago City, Negros Occidental. Sulfurous odors were also experienced by residents in these areas as well as in Kanlaon Volcano Observatory-La Carlota City (KVO-LCC) and as far away as Murcia, Negros Occidental and Bacolod City.

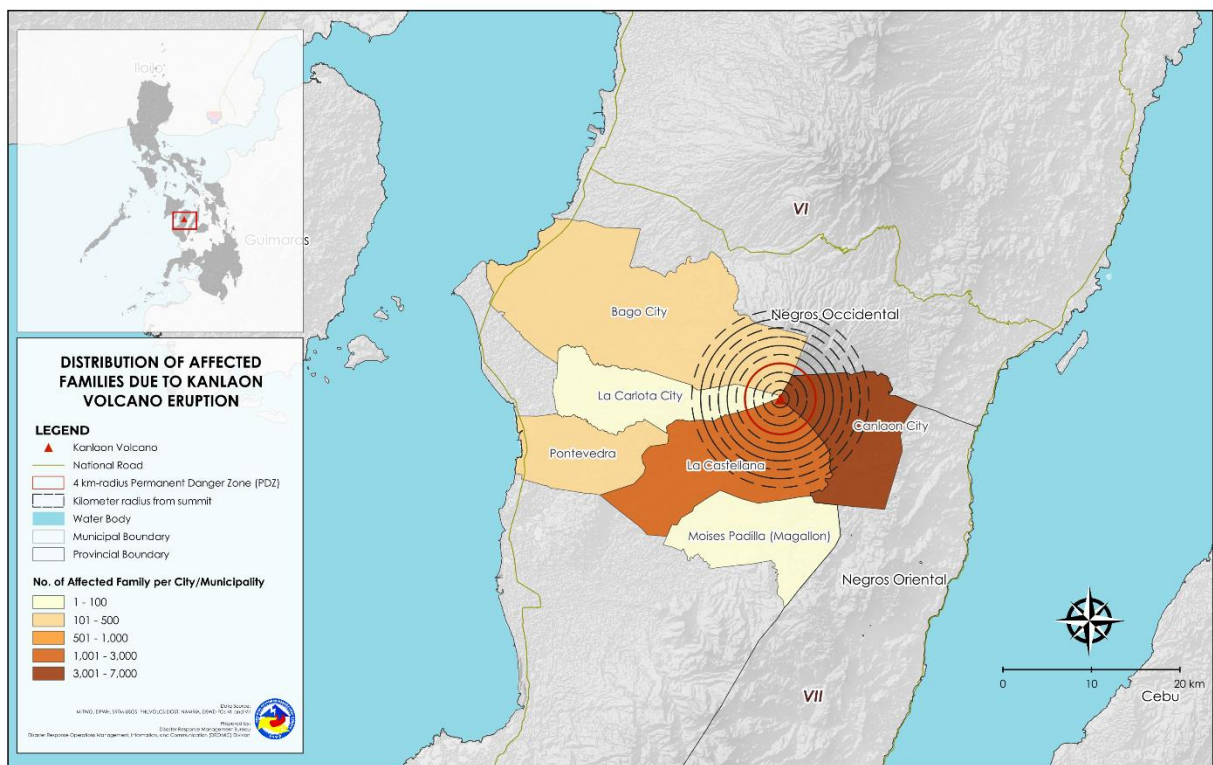

The public is strongly advised to be vigilant and avoid the four (4) kilometer-radius Permanent Danger Zone (PDZ) to minimize risks from volcanic hazards such as pyroclastic density currents, ballistic projectiles, rockfall and others. In case of ash fall events that may affect communities downwind of Kanlaon's crater, people should

cover their nose and mouth with a damp, clean cloth or dust mask. Civil aviation authorities must also advise pilots to avoid flying close to the volcano's summit as ash and ballistic fragments from sudden eruption can be hazardous to aircraft. Communities living beside river systems on the southern and western slopes, especially those that have already experienced lahars and muddy streamflows, are advised to take precautionary measures when heavy rainfall over the volcano has been forecast or has begun.

*Source: DOST-PHIVOLCS Kanlaon Volcano Bulletin*

## II. Status of Affected Areas and Population

A total of **8,479 families** or **29,137 persons** are affected in **24 barangays** in **Regions VI and VII** (see Annex A).

## III. Status of Displaced Population

### a. Inside Evacuation Center

There are **1,260 families** or **4,390 persons** currently taking temporary shelter in **eight (8) evacuation centers** in **Regions VI and VII** (see Annex B).

### b. Outside Evacuation Center

There are **79 families** or **361 persons** temporarily staying with their relatives or friends (see Annex E).

### c. Total Displaced Population

There are **1,339 families** or **4,751 persons** displaced in **Regions VI and VII** (see Annex F).

#### IV. Cost of Humanitarian Assistance Provided

A total of **₱11,306,446.35** worth of assistance was provided to the affected families; of which, **₱7,249,307.00** from the **DSWD**, **₱1,258,715.85** from the **Local Government Units (LGUs)**, **₱2,491,000.00** from **Non-Government Organizations (NGOs)** and **₱307,423.50** from **Other Partners** (see Annex G).

#### V. Response Actions and Interventions

##### a. DSWD FNI Augmentation to Field Offices

REGION	REQUESTED FFPs		DISPATCHED FFPs			STATUS

#### 1. Standby Funds

- ₱642.59 million Quick Response Fund (QRF) available at the DSWD Central Office.
- ₱10 million available at DSWD FOs VI and VII.
- ₱63.85 million available in other DSWD FOs which may support the relief needs of the families affected by the Kanlaon Volcano eruption through inter-FO augmentation.

#### 2. Prepositioned FFPs and Other Relief Items

- 131,879 FFPs available in Disaster Response Centers; of which, 52,903 FFPs are at the National Resource Operations Center (NROC), Pasay City and 78,976 FFPs are at the Visayas Disaster Resource Center (VDRC), Mandaue City.
- 141,982 FFPs available at DSWD FOs VI and VII.
- 1,203,136 FFPs in other DSWD FOs which may support the relief needs of the families affected by the Kanlaon Volcano eruption through inter-FO augmentation.

- ₱1.19 billion worth of other FNIs at NROC, VDRC, and DSWD Field Office Warehouses.
