
DSWD DROMIC Report #47 on Kanlaon Volcano Eruption as of 16 September 2024, 6AM

I. Situation Overview

As of **15 September 2024**, **Alert Level 2** is maintained over Kanlaon Volcano.

On **11 September 2024 at 7:00 PM**, Volcanic sulfur dioxide (SO₂) gas emission from the summit crater of Kanlaon based on campaign Flyspec measurements averaged **11,556 tonnes/day**. This is the **highest emission from the volcano** recorded since instrumental gas monitoring began. Kanlaon has been degassing increased concentrations of volcanic SO₂ this year at an average rate of 1,273 tonnes/day prior to the 3 June 2024 eruption, but emission since then has been particularly elevated at a current average of 3,565 tonnes/day. Sulfuric fumes were reported in the following localities; Brgy. San Miguel, **La Carlota City**; Brgy. Masulog and Brgy. Pula, **Canlaon City**; Brgy. Codcod, **San Carlos City**; Brgy. Inolingan, **Moises Padilla**. Prolonged exposure to volcanic SO₂, especially of communities within direct reach of accumulation from plumes during low wind conditions, can cause irritation of the eyes, throat and respiratory tract. People who may be particularly sensitive are those with health conditions such as asthma, lung disease and heart disease, the elderly, pregnant women and children.

On 03 June 2024 at 8:00 PM, Alert Level 2 was raised from Alert Level 1 for Kanlaon Volcano after a moderately explosive eruption occurred at the summit crater at 6:51 PM. The event was recorded as an E-type earthquake that lasted six (6) minutes based on seismic data and produced a five (5) kilometer-high voluminous eruption plume. All ten (10) seismic stations, three (3) infrasound stations and two (2) visual monitors of the Kanlaon Volcano Network (KVN) recorded the explosion. Thermal camera monitors showed material collapsing from the incandescent plume forming Pyroclastic density currents (PDCs) that descended the southern slopes to a distance of two (2) to three (3) kilometers. Incandescent ballistic ejecta was also observed to rain down from the eruption plume. Rumbling sounds generated by the eruption were heard in La Castellana and La Carlota City, Negros Occidental and Canlaon City, Negros Oriental. Coarse ashfall reportedly fell upon barangays of these same areas and Bago City, Negros Occidental. Sulfurous odors were also experienced by residents in these areas as well as in Kanlaon Volcano Observatory-La Carlota City (KVO-LCC) and as far away as Murcia, Negros Occidental and Bacolod City.

On 08 June, 28 June, 02 July, 03 July, 15 July, 10 August, 13 August, 21 August, 24 August, and 25 August 2024, observations of increased seismic activity, increased ground deformation changes, and elevated volcanic sulfur dioxide gas flux were recorded over the Kanlaon Volcano.

The public is reminded that **Alert Level 2 (increasing unrest) prevails over Kanlaon**. This means that there is current unrest may lead to eruptive unrest and an increase in the Alert Level.

The public is strongly advised to be vigilant and avoid entry into the four (4) kilometer-radius Permanent Danger Zone (PDZ) to minimize risks from volcanic hazards such

as pyroclastic density currents, ballistic projectiles, rockfall and others. In case of ash fall events that may affect communities downwind of Kanlaon's crater, people should cover their nose and mouth with a damp, clean cloth or dust mask.

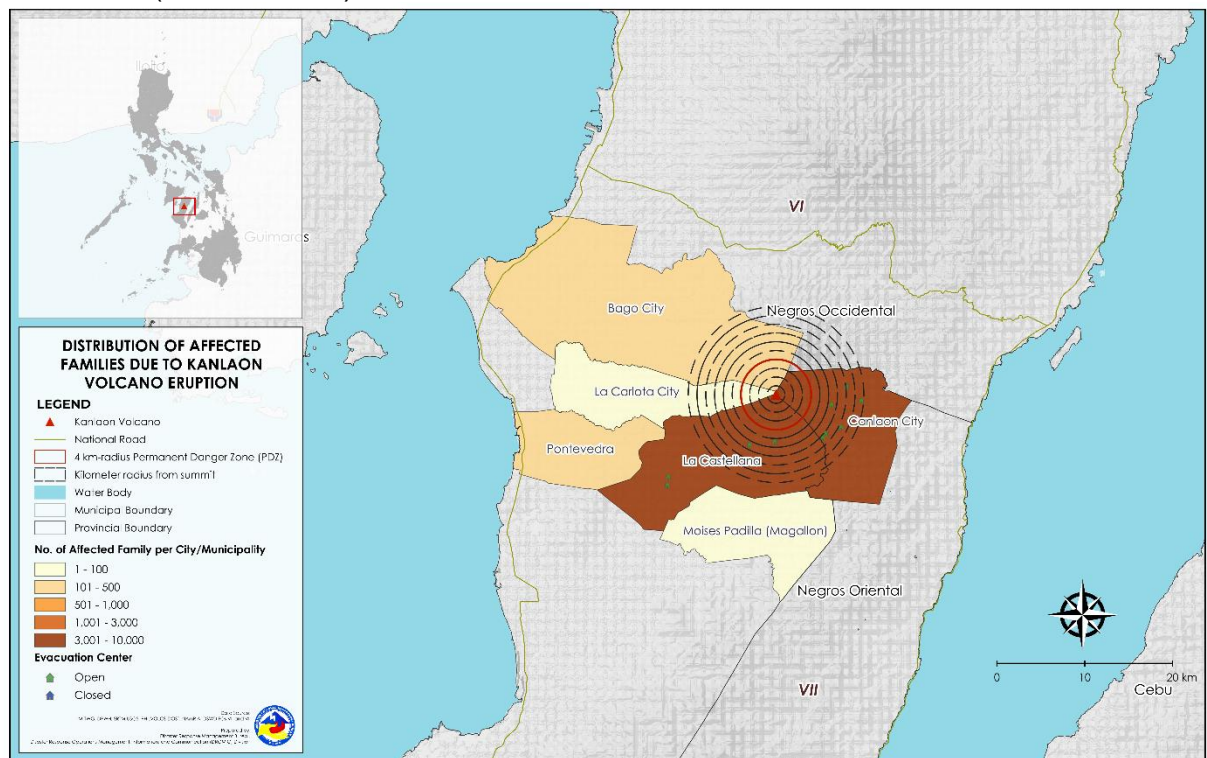

Civil aviation authorities must also advise pilots to avoid flying close to the volcano's summit as ash and ballistic fragments from sudden eruption can be hazardous to aircraft.

Communities living beside river systems on the southern and western slopes, especially those that have already experienced lahars and muddy stream flows, are advised to take precautionary measures when heavy rainfall over the volcano has been forecast or has begun.

II. Status of Affected Areas and Population

A total of **17,279 families** or **57,226 persons** are affected in **23 barangays** in **Regions VI and VII** (see Annex A)

III. Status of Displaced Population

a. Inside Evacuation Center

There are **1,055 families** or **3,270 persons** currently taking temporary shelter in **11 evacuation centers** in **Regions VI and VII** (see Annex B).

b. Outside Evacuation Center

A total of **212 families** or **775 persons** temporarily stayed with their relatives or friends (see Annex E).

c. Total Displaced Population

There are **1,055 families** or **3,270 persons** displaced in **Regions VI** and **VII** (see Annex F).

IV. Damaged Houses

A total of **2,680 houses** were **partially damaged** in **La Castellana, Negros Occidental, Region VI** (see Annex G).

V. Cost of Humanitarian Assistance Provided

A total of **₱54,471,155.67** worth of assistance was provided to the affected families composed of **₱37,670,992.28** from the **DSWD**, **₱4,414,412.97** from the **Local Government Units (LGUs)**, **₱2,491,000.00** from **Non-Government Organizations (NGOs)** and **₱9,894,750.42** from **Other Partners** (see Annex H).

VI. Response Actions and Interventions

a. Standby Funds and Prepositioned Relief Stockpile

OFFICE	STANDBY FUNDS	STOCKPILE			TOTAL STANDBY FUNDS & STOCKPILE

1. Standby Funds

- ₱166.53 million Quick Response Fund (QRF) available at the DSWD Central Office.
- ₱6 million available at DSWD FOs VI and VII.
- ₱41 million available in other DSWD FOs which may support the relief needs of the families affected by the Kanlaon Volcano eruption through inter-FO augmentation.

2. Prepositioned FFPs and Other Relief Items

- 190,727 FFPs available in Disaster Response Centers; of which, 109,579 FFPs are at the National Resource Operations Center (NROC), Pasay City and 81,148 FFPs are at the Visayas Disaster Resource Center (VDRC), Mandaue City.
- 197,163 FFPs available at DSWD FOs VI and VII.
- 1,385,811 FFPs in other DSWD FOs which may support the relief needs of the families affected by the Kanlaon Volcano eruption through inter-FO augmentation.

- ₱1.16 billion worth of other FNIs at NROC, VDRC, and DSWD Field Office Warehouses.

b. Food and Non-food Items (FNIs)
