

DSWD DROMIC Report #1 on the Effects of Shear Line in Agusan del Sur, Caraga Region as of 22 February 2025, 6AM

I. Situation Overview

On 20 February 2025 at around 4:00 AM, cloudy skies with scattered rains and isolated thunderstorms caused by Shear Line may have brought possible flash floods or landslides due to moderate to heavy rains in Visayas, MIMAROPA, Biol REgion, Caraga, Laguna, Rizal and Quezon..

On the same day, several municipalities in Agusan del Sur experienced flooding due to the Shear Line. Further, continuous heavy rainfall resulted in the displacement of families and individuals in the community.

In response, The Department of Social Welfare and Development (DSWD), through its Field Office in the Caraga Region, actively participated in the response operation and maintained continuous coordination with the concerned Local Government Units to manage the needs of the displaced population, provide timely updates, and address potential requests for relief augmentation.
